

STHS EHR - Cerner Implementation

On March 17, 2013 South Texas Health System (STHS) went LIVE with Fusion (Cerner), a fully integrated electronic medical records documentation system which replaced many of the existing clinical systems including Opus, Soarian DI and RMS. As part of the implementation process, it is required that you take a web -based training. This Cerner Web Based Training is a self-paced learning module that can be completed from the comfort of your home or office.

Along with the FUSION Inpatient Provider Certificate of Completion, everyone is required to complete and sign the STHS Information Security and Privacy Agreement Form. We will also need a completed/sign copy of the new Health Information Data Access Agreement Form. This is normally completed/signed by the person that is overall responsible for your organization (e.g. President, CEO, Medical Director, etc.).

If you have any questions or need any assistance, please feel free to contact our Information Services Department Customer Service Center at (956) 388-2233.

**NOTE: The on-line web-based course is only compatible with Internet Explorer internet browser*

To access the web training:

1. Go to www.sthsmd.com and click on **Cerner Training**.
2. Click on the 'Select a Course' dropdown and select **FUSION Inpatient Provider**.
3. Click the **Launch Course** button to start the course.
4. Complete the **Acknowledgment** step in order to reflect that you have finished reviewing the FUSION Inpatient Provider learning course.
5. Click on **Show Certificate**, enter your name, and **print** a copy – this cannot be retrieved after completing the course.
6. Complete the **Security Agreement Forms**.
7. Fax a copy of the Certificate and Security Agreement forms to Noe Alvarado at 956-289-5105.
8. Obtain Username / Password.
9. Schedule office visit.

To confirm if your fax was received and/or follow-up on your request contact Noe Alvarado at 956-388-2245.
